

## ASW-35 Windows Based Access Control Software

The **ASW-35** is Apollo's simple and extremely user-friendly access control software. It is used in conjunction with the **APN-35**, 2 door controllers. Up to 4 **APN-35** controllers can be daisy chained together to form an eight-door system or 4 door system with in/ out readers on a single port. The **ASW-35** provides a graphically represented real time status display. Online events display can be selectively checked to display only the required events. A quick report is available for quickly generating a report of the first used and last used of each cardholder. The **ASW-35** also supports a simple Time and Attendance report for generating work time.
